

Gerhardt
S-Series

The high-end S-Series automatic coffee machine is perfect for high capacity beverage needs. The user-friendly touch screen menu guidance enables intuitive product selection together with the fast beverage dispenser enables you to increase your beverage sales.

The S-Series is equipped with advanced MMX mixing system which effectively prevents long-term fouling inside the vending machine and provides excellent mixing results for all soluble products with reduced product use.

This low-maintenance and energy-efficient beverage vending machine can optionally be equipped with a double grinder, DUO Cup conveyor, fully automatic lid dispenser unit and a cashless payment system.
